

**Black
Scottish
Stories**

SHARING LIVES, BUILDING UNDERSTANDING.

Who We Are

Black Scottish Stories is a storytelling platform that shares the lived experiences of Black immigrants living in Scotland.

We focus on real people, real journeys, and real voices.

Why It Matters

Many people live side by side but never truly hear each other's stories.

When we listen, we understand.

When we understand, we connect.

What We Share

Stories of everyday life in Scotland.

Experiences of building a new home.

Reflections on identity, culture, and belonging.

What We Believe

Everyone has a story worth telling.

And every story has the power to bring people closer.

“A thought to take away”

“Before we form opinions about people, we should first hear their story.”
